

Maxon Series 1000

Maxon Series 1000 is designed to stand alone or coordinate with Maxon Panel Systems. Select from a broad assortment of matching fabrics, laminates and paints.

- Fast installation and reconfiguration, thanks to our pre-drilled holes under-desk surfaces, ensuring perfect alignment. All under-structure components work on right or left side.
- Broad range of hutch units and files, including hutches with top-mounted hinged doors and open shelves. Hutch backs and tackboards are optional. Under-desk pedestal files come in 2- or 3-drawer styles with multiple handle options, and in mobile or stationary models. Lateral files are available in various widths and in 2- through 5-drawer models.

Durable high-pressure laminate desk surfaces with T-mold edge finishes and rounded corners. Available in a full range of colors and patterns.

Modesty and end panels are 22-gauge steel for durability. End panels have double-wall construction for strength.

Series 1000™ Desk System
