

We developed SIMPLICITY II to deliver all the benefits of systems furniture, without the drawbacks. SIMPLICITY II is easy to install. The panels are self-structuring, the connectors are easy to manage, and the only installation tool you need is a Phillips screwdriver.

SIMPLICITY II also offers straight glazed panels, work-surfaces that can be attached at executive or data-entry height and overhead storage in two styles.

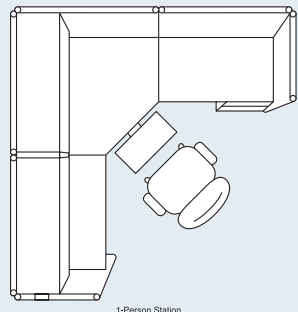

Best of all, SIMPLICITY II is priced attractively, for those up-and-growing companies who need to watch the budget.

- Easy four-step assembly simplifies setup and reconfiguration.
- Twenty-four different panel sizes offered, in four heights.
- Ideal with panel-hung or freestanding work-surfaces.
- Panel-hung overhead full-height storage cabinets available with or without flipper doors.
- Meets or exceeds ANSI/BIFNA performance standards.
- Covered by The HON® Limited Lifetime Warranty.

CLUSTERED DATA ENTRY STATIONS

Obtain optimum utility by grouping multiple workstations around a central point. Requires eight SP6537 panels, eight SP5325 panels, four WS3724 corner worksurfaces, eight WS2437 rectangular worksurfaces, eight 36"W overhead storage cabinets, and connecting hardware.

WORD PROCESSING STATION

This easy-to-specify arrangement is only 89" x 89" of floor space. Utilizes four SP5343 panels, two SP5325 panels, two WS2443 worksurfaces, one WS4324 corner worksurface and two 42W open bookshelves and connecting hardware.
